Beautiful White Lies

by Lucy Harris

Promises . . . A powerful word providing assurance that the person who made the promise would follow through on their kept word. However, often times in life promises are broken for reasons beyond our knowledge and control at that moment. The universe sometimes takes a step into our lives and the magic we hoped for doesn't always happen as we envision. The universe usually has something else in store for us!

The book "Broken Promises" begins with Julie Stanford, a successful writer currently on a writing tour with a stopover on the small coastal town of Block Island, just off the coast of Rhode Island. She's promoting her latest best-selling novel, "Five Hundred Times", the title being symbolic of an ex-lover who broke her heart over 20 years ago. Harry and Julie's relationship was passionate and caring, but despite this, Harry's guilt doesn't allow him to continue the relationship. He returns to his alcoholic wife and childhood sweetheart. Harry views life and time in a static manner, whereas Julie has a successful writing profession and lives independently. In addition to self-discovery, Julie learns of lives on the island engaged in witchcraft, trysts, and even possibly murder.

Joyce Frances, grew up the youngest in a family of six in Delaware, went to college in Connecticut, where she earned a B.A. in English Literature. She loves writing, friends, and travel. She resides on a small coastal town in Connecticut.

Perhaps a lesson to be taken away from "Broken Promises" is managing our emotions. Making promises while we're happy and avoiding decisions when we're mad. Either way our emotions can destroy lives with challenging consequences along the way.
